National Certificate II, Computer Systems Servicing

Apr 2025 – Apr 2030

Technical Education and Skills Development Authority (TESDA)

Networking Basics

In progress

Cisco Networking Academy

PROJECTS

School Network Build · Cisco Packet Tracer

2026

- Designed a hierarchical star network (192.168.10.0/24) for three departments with a Cisco 2911 router and four 2960 switches configured through the IOS CLI.
- Deployed DNS, HTTP, FTP, SMTP/POP3 email, WPA2 Wi-Fi, CCTV and a backup server; all 7 service tests passed.
- Documented the IP plan, device configs, test results and six troubleshooting fixes.

MLBB Tournament Hub · PHP, MySQL, XAMPP

In progress

- CRUD web app for registering teams, scheduling matches and recording results.

Java Swing Games · Java, Swing

Personal

- Built Snake, Mahjong Solitaire, Breakout and Star Reaper as desktop games packaged as runnable JAR files.

Cavhen Portfolio · HTML, CSS, JavaScript

2026

- Responsive, accessible personal site with a WebGL hero, dark mode and reduced-motion support.

SKILLS

Web HTML, CSS, JavaScript, PHP, MySQL, responsive and accessible design
